## New Product Announcement

# Throttle, Propeller and Mixture Controls for Beechcraft Aircraft!

### FAA-PMA approved for your Bonanza Aircraft!

McFarlane engine and propeller controls incorporate a number of unique features that make our controls the highest quality on the market. If you don't have a McFarlane engine control in your aircraft yet, its time to upgrade to the best!

- All metal construction
- Pilot friendly knobs
- Lifetime lubrication
- Superior low friction conduit

### Vernier-Assist™ option now available for your throttle!

Fine adjustments are made by rotating the knob clockwise or counterclockwise and course adjustments by pushing and pulling without the hassle of a release button. The McFarlane Vernier-Assist™ throttle controls use a patented roller action.

- Jam-proof safety
- Precision power adjustments
- Smooth friction control
- Light and compact
- Standard vernier action, without the button!
