

FOR RELEASE ON 07/01/2021

McFarlane Aviation, Inc. Partners with C J Aviation Inc.

McFarlane and C J Aviation partner to better serve the General Aviation Marketplace

[Baldwin City, Kansas, July 1, 2021] – McFarlane announced today they have acquired an interest in C J Aviation, a leading FAA-PMA manufacturer and overhaul facility for Fuel Pumps, Hydraulic Pumps, and Airshow Smoke Pumps. C J Aviation operates their FAA Certified Repair Station and manufacturing facility out of Miami, FL in close proximity to the Miami Executive Airport. Charlie and Joy-Anna Duffie founded the company over 30 years ago and have built a well-respected brand that is known for their innovative quality products, customer service, and subject expertise.

“We are looking forward to our new partnership with C J Aviation and what our two companies will accomplish together.” states Dave McFarlane, of McFarlane Aviation Products “The quality of their products and the value they bring to their customers fits with our vision of providing our customers a one-stop shopping experience with known brands at the best possible pricing”.

Charlie Duffie, of C J Aviation, states “Joy-Anna, myself and our employees are excited as well about working with the McFarlane team. The partnership will give us better access to a larger market utilizing McFarlane’s worldwide distribution network, along with the support of McFarlane’s engineering and manufacturing teams that will accelerate the development and FAA certification of new products within C J’s product line”.

Located in the Heartland, at the Vinland Aerodrome in Baldwin City, Kansas, McFarlane is a diversified engineering and manufacturing company that has been providing affordable, high-quality aircraft components for over 30 years. McFarlane believes in high-quality products at affordable prices; with over 30,000 FAA-PMA replacement aircraft parts in stock. They are the world’s largest distributor of the German built MT™ performance propellers and are proud to be part of the commercial, business, and general aviation markets.
