

FAA-PMA Approved

Brake and Wheel Parts

**Wheel Bearings Cups and Cones**

FAA-PMA approved Timken wheel bearings for Goodyear, Cleveland, and McCauley wheels.

- Class 2 aviation grade bearings (Timken designates these with a -20629 suffix)
- When landing the wheel bearings must go from Zero RPM to 1384 RPM, or more, instantaneously. Automotive bearings aren't designed for this type of service
- Tighter tolerance and higher quality control than Class 4 automotive bearings
- Save \$\$\$

**Don't be tempted to buy cheap automotive bearings!**

Since Timken uses the same part number for both automotive and aviation versions of these bearings, many people mistakenly use lower quality automotive bearings in their airplane. It is critical that FAA-PMA Class 2 version be used for aircraft applications for two reasons:

- They are a higher class bearing with tighter tolerance and have been subjected to more stringent quality control procedures. Due to the smaller diameter of aircraft wheels, at a given ground speed the bearings rotate at a much higher RPM and require the tighter tolerances to prevent premature failure. Example: At a 70 mph touchdown speed (equivalent to highway speed of a car), a typical 17-inch diameter airplane tire is rotating at 1384 RPM, whereas a typical 27 inch car tire is only rotating at 871 RPM. So even though the aircraft bearing is only subject to intermittent use, some of the performance demands are much higher than a typical automotive application.
- It is a violation of FAA regulations to use non-approved automotive bearings on certified aircraft.

See the table on the next page to find the correct bearing for your wheels.

**Wheel Grease Seal Kits for Cessna Aircraft**

Finally a low cost alternative! FAA-PMA approved for Cessna aircraft with Cleveland, and McCauley wheels.

Convenient Kits now available

- Each kit contains everything required to service one wheel: grease seal rings, plates, snap rings and felts; even screws and washers when required
- We have done the research so you don't have to!
- Hard to find parts in stock
- Save \$\$\$

**FAA-PMA Approved!**

**Not sure what wheel you have?**  
 Visit [www.mcfarlaneaviation.com/wheel-seals](http://www.mcfarlaneaviation.com/wheel-seals) to find the original equipment wheels for your aircraft and its eligibility.  
 See the table on the next page to find the correct kit and components for your wheel.

**Approval for Mooney and Beechcraft coming soon!**

**Hard to find grease seal rings and plates!**
