Nose Wheel Steering Rod Boots for Cessna 150 thru 182 Aircraft

**New!** Improved! Extended Life and Better Fire Protection Boot P/N MC0713666-1 for 182E thru 182T

McFarlane has improved the design of both the boot and the retaining flange. The Cessna boot is prone to ripping and tears caused by fatigue and premature infrared heat related material break down. McFarlane has utilized a three ply material design incorporating both Kevlar and fiberglass, and a supple high temperature rubber coating. Kevlar and fiberglass work together to prevent wear, fatigue, and heat failures while offering 15 times the fire resistance of the original boot for extended fire protection at 2,000 degrees F.

McFarlane has also upgraded the original aluminum flange to a stainless steel firewall material. The flange is included with the boot.

- Kevlar/Fiberglass composite for strength and fire protection
- Fire proof stainless steel flange
- Deeper convoluted design for better flexibility and longer life

**Don’t Forget the Hose Clamp, P/N MCS2357-2S!**

Cessna failed to list the clamp in the parts catalog, therefore people tend to use a nylon cable tie which will easily melt away with an engine fire. Always use metal clamp P/N MCS2357-2S to attach the boot to the steering link.

P/N MC0413304-3 for 150 thru 152 series
P/N MC0543015-6 for 172, 175 and early 182 series

McFarlane 150 thru early 182 series steering rod boots are manufactured with a black Kevlar/fiberglass blend fabric. The fatigue resistance of Kevlar is uniquely mated with the fire resistance of fiberglass. This is a super tough, high temperature fabric that will provide many years of outstanding performance.

- Keeps exhaust and carbon monoxide out of the cabin
- Protects the cabin in case of an engine fire

**Doubler for Cessna Aircraft**

Doubler for 150-152 aircraft is now McFarlane FAA-PMA approved.

- White Poly Paint - ready to install
- 1/2 the price!

**182 Steering Rod**

P/N MC0760622-1

Nose Wheel Steering Rods for Cessna Aircraft

Tired of ‘soft’ worn out steering rods?
Replace them with improved McFarlane steering rods.

- Redesigned long life springs!
- Stainless steel tubes for improved corrosion resistance (MC0543022 Series)
- Hardened internal washer for greater durability
- Optimum performance even after years of service!

**New!** Steering Bungee P/N MC0760622-1 for 182E thru 182T

**New!** Sprocket P/N MC0760630-1 for 182E thru 182T

Anodized to prevent corrosion and wear

**New!** Rod End P/N MCMM3M12 for 182E thru 182T

Direct replacement

**Maintenance Tip:**

How do I know if my steering rods need to be replaced?

- Nose wheel steering is unusually sluggish.
- One or both sides offer little or no spring resistance to steering input.
- More than 1 1/8” of free travel is present in either steering rod.
- The aircraft pulls to either side during taxiing.
- Inconsistent steering or rudder rigging.

**Nose Wheel Steering Parts**

172, 172A, All

175, 175A, All

182, 182A, All

150, 150A, All

152, 152A, All

Model Quantity of one required per aircraft. Models R172E,F,G,H are pending FAA-PMA approval.
