Press Release – New Product

D A M Window Cleaner – A new product from McFarlane

Baldwin City, KS, August 29, 2018: McFarlane Aviation Products announces the best D A M Window Cleaner!

With over a year of development and testing, McFarlane is excited to offer their D A M Window Cleaner to you. It is a fast, streak-free liquid spray designed for acrylic and other surfaces. It does not contain ammonia or alcohol that are harmful to plastic. It has an amazing *melt away* cleaning power. The carnauba wax and polymer formula fills minor scratches and leaves a slick static free surface that makes cleaning bugs easier next time. D A M window cleaner is packaged in trigger spray bottles, not altitude sensitive aerosol cans.

After years of frustration with lesser performing and overpriced window cleaners, Dave A. McFarlane worked diligently to develop his own D A M Window Cleaner that outperforms the competition. “We launched this product at EAA AirVenture Oshkosh this year” stated Dave McFarlane, President of McFarlane Aviation Products. “It was received with overwhelming excitement.” Now the aviation industry has a high performance window cleaner at an affordable price. Other cleaners that work well have harmful chemicals in them. It was noted some of the Mil-Spec products also contain a lot of alcohol. D A M Window Cleaner is safe on all surfaces.

It is recommended to use cotton towels when cleaning your windows. Prepackaged t-shirt material (new, no seams or print) is also offered by McFarlane. The t-shirt material is economical and works wonders when cleaning up the bugs and protecting your windows from scratches during the cleaning process.

Pilots have reported easier cleaning and better visibility when using D A M Window Cleaner! McFarlane has it in cases of 14-1.5oz bottles, 12-16oz bottles, or a convenient kit including one of each size bottle and five t-shirt towels.

McFarlane Aviation Products has provided general aviation with high quality replacement aircraft parts at an affordable price for over 30 years and were recently awarded the 2018 Kansas Governor’s Award of Business Excellence!
