Universal Light-Weight Controls

Great for non-certified aircraft applications

- Used as cabin heat, cabin air and defrost
- High temperature Teflon lined conduit for smooth, consistent control
- Available in 4, 6, 8, 10, 12 foot and custom lengths
- Available with creep resistant options to prevent control creep due to engine vibration

How to order

Standard control: Order control P/N **MCU124-LLL** where **LLL** is the length of the control in inches.

Control with creep resistant features: Order control P/N **MCU224-LLL** where **LLL** is the length of the control in inches.

Don't Forget Your Knob!

Order unmarked or standard engraved knobs separately to fit your needs

Custom Engraved Knobs

Custom laser marking of the knobs is available for \$25.00 per knob. Receive a \$15.00 discount for each additional knob with the same design.
